Typescript, Javascript, React, Redux, NextJS, NodeJS, NPM/Yarn, HTML5, CSS3/SASS/JSS, ESBuild, Rollup, Webpack, CI/CD, Testing (Jest, RTL, Cypress, Playwright), Git, REST, Responsive and Mobile-first Design, Design Systems, UI/UX

Experience

Futurestay, CT

futurestay.com

Oct 2022 - Present

Director of Engineering, Jul 2023 - Sep 2023

- Led the engineering team (10 direct reports) with an execution-oriented (technical) vision and ensured business goals were met; plan and build product at optimal velocity
- Oversaw architecture and maintained the frontend for the next-gen Futurestay app
- Primary contributor/engineer on product features and platform initiatives

Staff Software Engineer, Oct 2022 - Jul 2023

- Primary frontend engineer responsible for standing up and developing the company's Next-Gen SaaS Platform for short-term rental business management
- Mentored the frontend engineers on the team and ensured estimations, timelines and goals are met on 2-week sprint cycles
- Collaborated with cross-functional teams and stakeholders to ensure business goals were met with each feature
- Maintained the frontend platform (React ecosystem with NextJS), test framework and CI/CD

Yieldstreet, NY

yieldstreet.com

Nov 2021 - Nov 2022

Engineering Manager, Frontend

- Managed a team of 8 engineers; tech lead teams, implement frontend best practices and empower engineers to effectively build and scale the web and mobile platforms
- Stood up the "Advice" team, the product-engineering team responsible for its "Robo Advisor" (or recommendation-algorithm product) for private or alternate investments.
- Primary frontend engineer on various product features

Electric AI, NY

electric.ai

Oct 2018 - Aug 2021

Engineering Manager, Jan 2021 - Aug 2021

- Managed 2 teams, 16 direct reports: Frontend Platform team and Product team responsible for the onboarding ramps and user lifecycle areas of the customer-facing app.
- 50% time split between management and development
- Maintained the frontend platform codebase, CI/CD and infrastructure

Senior Software Engineer, Jan 2020 - Jan 2021

- Led the frontend platform team and planned the quarterly roadmap with stakeholders
- Responsible for building features into both the customer-facing and internal products using the React ecosystem with GraphQL, REST and websockets
- Stood up the product's design system in collaboration with the Product Design team and various stakeholders. Ensured the entire product suite reached 90% migration in <1 year

Software Engineer, Oct 2018 - Jan 2020

- First frontend engineer hire responsible for standing up and building Turbine, the company's B2B React web application for helping customers automate IT tasks and processes for businesses
- Developed features and onboarded 200+ businesses in <1 year
- Maintained the frontend platform, internal apps, libraries and APIs — React and GraphQL ecosystem

Alphapoint, NY

alphapoint.com

Sep 2017 - Oct 2018

Frontend Engineer

- Developed and maintained white-label software and frontend libraries for crypto exchanges using React, RXJS, Webpack and various tools to bundle, version, ship and support product through versioning cycles.

Just Appraisers, NY
justappraisers.com
Sep 2013 - Sep 2017

Software Developer, UI/UX, Jan 2015 - Sep 2017

- Built a B2C client portal; designed and developed web/desktop application features using React, Wordpress and Drupal.

UI/UX Engineer, Sep 2013 - Jan 2015

- Rebranded, designed, developed and maintained a client portal for managing and sharing appraisal documents, websites and landing pages — underlying languages and frameworks consisted of .NET, Drupal, Wordpress (PHP, Javascript, HTML5, CSS3)

Education

MIT CSAIL - Massachusetts Institute of Technology, Computer Science and Artificial Intelligence Laboratory

Studies: Human-Computer Interaction for User Experience Design

2018

St. John's University

Undergraduate Studies: Business

2009-2011
